Established in 1958 in IL

Giving on a national and international basis.

The foundation supports Lions Clubs International by assisting clubs in meeting the needs of their local and global communities.
The grantmaker has identified the following area(s) of interest:

**CORE 4 GRANTS**

These grants fund large-scale projects related to Lions Clubs International’s four core service commitments: preserving sight (implementing pre-school vision screening programs in developed countries, as well as low-vision projects), combating disability (building homes for the blind and disabled, and providing eye care services for Special Olympics athletes), promoting health (particularly diabetes prevention and treatment), and serving youth.

**EMERGENCY/DISASTER GRANTS**

Grants of up to $10,000 are available to help local clubs meet such immediate needs as food, water, clothing, and medical supplies.

**HUMANITARIAN AWARD**

This $200,000 grant is awarded to a person who has demonstrated exemplary involvement in humanitarian activities.

**INTERNATIONAL ASSISTANCE GRANTS**

These grants (ranging from $5,000 to $30,000) enable clubs in developed countries to partner with Lions clubs in lesser-developed regions on humanitarian projects. Grants fund basic health care, education and literacy, clean water and sanitation, rural development and self-sufficiency programs, services for the blind and otherwise disabled, and environmental protection. Grants can also be considered for international medical missions and larger-scale eyeglass recycling centers that have a demonstrable impact on developing countries.

**SIGHTFIRST GRANTS**

These grants work to fight preventable and reversible blindness locally and globally (including cataracts, river blindness, trachoma, and diabetic eye disease and glaucoma) by building hospitals and clinics; training doctors, nurses, and other health-care workers; distributing medicine; and raising awareness of eye disease. Local clubs work with regional technical advisors in developing grant applications and project proposals.

**STANDARD GRANTS**

These grants provide local clubs with funding for large-scale humanitarian projects, in the form of matching grants of up to $75,000. Grants generally provide capital funding for equipment and infrastructure needs, for such projects as mobile health units, hospices, nursing homes, medical units, street children’s homes, blind and disabled centers, eye clinics, research centers, and schools in developing countries.
